

CRAFT SERVICE

SUSTAINABLE PRACTICES	Completed?	COMMENTS
1 Replace individual bottles of water with water dispensers and refillable bottles on stage.		
2 Replace individual bottles of water with water jugs and refillable bottles on location.		
3 Provide adequate and convenient water stations using large dispensers. Place near craft tables, camera, work carts, background holding, and base camp. Tip: place dispensers on a cart or strap to dolly for easy mobility.		
4 Use reusable dishes, cups, mugs, silverware, and table cloths when possible.		
5 Do not use plastic foam (i.e., Styrofoam or #6 polystyrene plastic). If disposables cannot be avoided, purchase paper products made with the highest possible recycled content and/or compostable products.		
6 Offer vegetarian (no meat) or vegan (no animal products) options.		
7 Reduce the amount of meat served, eliminating it on at least one day a week.		
8 Serve local, seasonal, organic and/or sustainably grown food.		
9 Do not purchase any "Red List" seafood. For guidance in North America, visit SeafoodWatch.org or in the United Kingdom visit www.GoodFishGuide.org .		
10 Use coffee from environmentally preferable sources (Fair trade/shade grown). Avoid "pod" single use coffee and use reusable filters.		
11 Donate all edible leftover food to local food banks and charities.		
12 Separate food that cannot be donated for food waste recycling/organics/compost pick ups.		

13 Provide recycling bins with lids and clear signs. Coordinate with Production/Locations to ensure proper waste management and disposal.

14 Flatten and recycle all cardboard.

15 Use energy efficient practices such as unplugging small appliances and choosing propane over charcoal/wood grills.

16 Use environmentally friendly cleaning products (biodegradable, non-toxic, plant-based, Green Seal certified).

17 Use trash bags and liners made with recycled or biodegradable materials

18 Follow green practices; reduce, reuse, recycle and shut down (e.g., reduce paper, refill water bottles, shut down equipment).

19 Search for new green vendors at GreenProductionGuide.com.
